Reading «L'Agefi» is the guarantee that you won't miss out on any economic and financial news. «L'Agefi» is a true working tool which helps decision makers to follow their markets, the activity of their clients, competitors and suppliers, not to mention bigger trends and market regulations. Since 1950, the news specialist has also been a reliable source of information for investors and citizens.

«L'Agefi» offers a unique flow of information in French with a Swiss focus. Its content is available at all times on its digital platforms, computers, tablets or smartphones. Twice a week, on Wednesdays and Fridays, the paper and e-paper editions delve

into important topics and feature the most remarkable information of the moment. Economic debates also take place in its columns thanks to contributions from leading personalities and experts, and thanks to editorials defending the market economy.

«L'Agefi»'s readership is primarily made up of active people, members of company management or in managerial and human resources positions. It is the must-read paper of the financial centre in the French-speaking part of Switzerland. Its recognition rate in these target groups is close to 100% in Western Switzerland, and high in German-speaking Switzerland. It also serves as a reference in political circles.

Editor in Chief
FRÉDÉRIC LELIÈVRE
